

## ENVIRONMENTAL POLICY STATEMENT

Premron Pty Ltd trading as Premron EBS, Premron CHS, Premron International and Ausino Projects recognise the importance of responsible environmental management and sustainability and strives for environmental excellence across all working conditions. We operate projects under a site-specific Environment Management Plan, which is tailored to ensure soil erosion, waste, noise, dust, weed and water impacts are managed and risks are minimised.

Our focus is to deliver safe and sustainable work and minimize all risk and damage to our working environment, as a result of business activities. This is implemented by strict adherence to legislative obligations and our company Quality Assurance policy.

### Our Commitment to the Environment

- Implement project specific Environment Management plans to prevent pollution, reduce waste and conserve natural resources.
- Ensure knowledge and compliance with applicable environment laws and regulations.
- Reporting and recording environmental practices as part of our strict Quality Management System.
- Ongoing review of Environmental Management Plan to improve performance where applicable.
- Training for employees and contractors to ensure competence and awareness when actioning Environmental Management Plan.
- This policy demonstrates our commitment to sustainable business practices.

Our **Environmental Management System** is Certified by:

SGS Australia: ISO 14001:2015  
Certification No: AU20/81841452
