

QUALITY POLICY STATEMENT

AUSINO Projects Pty Ltd, located in Gladstone, Queensland, provides Engineering, Design, Manufacturing, Installation & Commissioning services to a diverse range of industries that include but are not limited to the Mining, Power Generation, Processing, Manufacturing and LNG Industry.

Premron Pty Ltd provides a unique enclosed conveyor system (Premron EBS) and underground mining haulage system (Premron CHS) to industries throughout Australia and Asia. This technology is exported to the world from our Gladstone base office.

Both AUSINO Projects and Premron are dedicated to maintaining a strong client focused culture, through consistent elevated Quality Performance to AS/NZS ISO 9001:2015; achieving excellence in workmanship whilst ensuring a sustainable company that is here for long term.

Our key objectives are:

- Sustainable Business and Practice
- Highest level of quality on all products and services to/ or exceeding the relevant Australian Standards and commitment to comply with legislative requirements to this standard.
- On time delivery with zero harm focus on employees, assets and environment
- Provide innovative solutions to meet often unique customer requirements
- Committed to maintaining and reviewing resources to continually assess and improve our business processes

Our **Quality Management System** is Certified by:

SGS Australia: ISO 9001:2015
Certification No: AU20/81841451
